Submitted by Katherine Harris

I seem to learn just about everything the hard way. So, I was thinking a monthly quip about things I learned the hard way could be funny and helpful. I will start you off:

I mount my pieces on a face plate and turn the outside to the shape I want and add a tenon. After that, I create a form to contain the resin, then pour to the top and let it overflow the form. It was my intent to attach the tenon in my chuck after the resin cured to complete the turning process. When pouring a resin crown, it is obvious that you need something under it. I put mine on a piece of silicon inside a tray. (Never mind how I learned to use a tray! Did you know that set resin will peel off of concrete?). In this case, the overflow ran down the sides to the point that the tenon was covered with resin. I now know that it is essential to raise your turning off the mat to avoid that problem. Overflow resin will get underneath the wood and it does not peel off! Fortunately, the inside of the bowl was not yet hollowed and I could still see the screw holes from the face plate. That allowed me to remount the face plate on to the piece, re-turn the outside and tenon and go on with it. Here is the bowl:

Oh, the resin filled the crack nicely, lol.

President's Corner

Steve Kellner

Another great meeting last month! I really enjoyed leading the Turners Talk discussion on bandsaw tune-up. As with other discussions I've led, I learned a lot not only about tuning up a bandsaw but how to use my bandsaw more effectively. I hope others learned half as much I did, and at least one member has built a blade sharpening jig and had great success with it!

Moving on to the business meeting and Show & Tell, I'm happy to say the sign-up sheet for fair demonstrators was so successful that Dan added a third lathe; I think there are still a few spots left. Don't miss out on the fun; if you have not signed up, get with Dan and join the party. And then we get to Show & Tell! By my count, 24 of us participated which may not be a record but it was great to see. And then there was Dan, trooper that he was to demonstrate his method of making thin-walled hollow forms for piercing even on a bum knee! Hats off to you! You put the new lathe with its new swing-away tailstock feature to good use. We did not leave him with much time to do much piercing but he still made it look easy if you have the right tool of course.

Thanks for listening and make some shavings!

Please bring and wear your badge to the meeting!

If you want one, please contact Larry Yancey, lpyancey@gmail.com. The first one is free to members. There is a fee of \$10.00 to replace a lost one

Woodcraft Guidelines for Our Meetings

Woodcraft graciously provides a space for the club to meet. The store closes at 7:00 PM and they have an employee stay until our meeting ends. They have requested that we do not wander around the store after they close. Do all your purchases prior to the 7:00 PM closing time. If you need to leave early, please arrange that with the Woodcraft employee

Quarterly Challenges

3rd quarter 2024- bowl or vessel accented with texture

4th quarter 2024- turn an item to wear

Join Meeting Via Zoom

Be sure to check your email each month for the sign in information to join the meeting with Zoom. If for some reason, it is not in your inbox, simply refer back to a previous invitation for the information which remains the same from month to month.

The Zoom link will be active starting at about 6:15 PM on the evening of the meeting.

Turner's Talk Mentoring & Skills Development Workshop

The workshop meets at the beginning of our regular Thursday meeting at 5:30 PM. Come on in and let's talk shop .

September- Mandrels for turning spindles. A lot of "standard" mandrels will be shown at turners talk, but, if you have something you consider special, please bring it. Perhaps we all may learn something new.

October- Tips and tricks

November- Drying wood

September Program

Our September program is a demonstration of making wigs stands with Pam Bozkurt

Future Demonstrations

October- Skew turned finials, Steve Kellner

November- Yarn bowl, David Bushman

December- Annual Christmas party

Welcome New Members

Teri Drappier

Greg Gorbet

David Cox

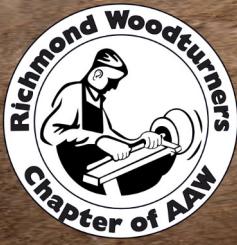

Bill Fowkes

I have a Oneway 2436 Lathe and always went to the woodturners at craft shows. My wife gave me a bowl making class for Christmas and I've been hooked ever since. I've sold at craft shows over the years and find that a nice way to move inventory out of the shop.

Richmond Woodturners are tops!!

The Board of the Club recently approved a new opportunity for us to use the art form of woodturning as a way to bring some joy and happiness to the children of the Children's Hospital of Richmond. The details follow below.

We are inviting every member of our club to make 3 - 5 spinning tops to be given to children who are currently in treatment at the Children's Hospital of Richmond. These items will be given to both inpatient and outpatient children. Please understand we are asking that you bring the best you have so these kids will receive what is a fun "WOW" for them. Now, if everyone does this, we will have over 300 to deliver to the hospital to be distributed by the staff to the children. I can see their faces now! A hand turned, beautifully decorated spinning top to play with on the table in their room. I am excited for these children already!

This is an act of generosity and an effort to display the art form we enjoy in a way that brings goodness into the lives of seriously ill children. That is truly "win-win." We get to create and the sick children have fun.

Now, I know you will ask, "are we only gathering spinning tops?" Indeed, spinning tops are what we are requesting. But, if you have a small wooden toy you have made that you think would be enjoyed, send me a photo and I can let you know if it fits the criteria. We have to have small items. Please, no used or second hand toys.

When I see our wonderful group of turners, I know that beautiful things will come.

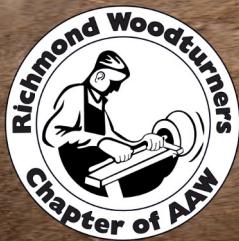

So, please bring these to our meetings on September 19th and October 17th. There will be a "bucket" for you to deposit them into. I am anxious to see our "bucket" overflow.

Keep two things in mind : 1) that any finish should be "food safe." Children love bright colors, 2) these tops are going to children and we should anticipate active play, so they should not be fragile, but sturdy. While perfection is not our goal, doing the best we can is.

You may bring your tops on September 19 and on October 17 to the regular meeting of the club. We plan to do this on a regular basis so we will seek to fill the buckets again. Right now let's get all we can ready to deliver by October 17th.

Thank you in advance. If you have questions of any nature please feel free to email me at jwdaniel@me.com.

With Gratitude for your Generosity,
John Daniel
Activities Director

Beware of Phishing Scam

From Chuck Horton

We want to warn all our members about a phishing email scam that has been and is currently being sent to our members and members of other clubs in the state. The email, supposedly from the president, asked the member to send \$1000 to a vendor through the Zelle banking web site. Of course, the member would be reimbursed from the treasury. This is a bogus email. It's concerning because the sender knows of the club, knows the president's name, knows they have a treasury, and knows at least one member's name and email address. It is not known how they obtained this information. If you should receive a similar email (or phone call), ignore it and let a board member know. We will never send you an email asking for money other than annual dues. If you have any doubts about an email apparently from officers or other club members, contact that person directly or a board member to check its authenticity.

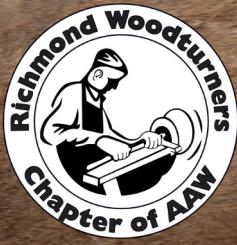

The First Annual Richmond Woodturner's Golf tournament

Chuck Bajnai and Jim Zorn played in the First Annual RWT Golf Event on August 27 at Magnolia Green Golf Club. The weather was hot; the camaraderie was exceptional; the scores will be better next year.

Chuck Bajnai and Al Kiebert enjoyed the second round of the 1st annual golf event at Magnolia Green Golf Club on September 4. The scores did not matter because the camaraderie was well above par.

RICHMOND WOODTURNERS Newsletter September 2024

Richmond Woodturners Club Activity

Woods To Goods
Hosted by Barry and Leigh Smith
October 19, 2024
11 am – 1 pm

Situated on 135 acres, you are invited to come out and join us for a day in the country. We will have a sawmill demonstration, a tour of the lumber yard, kiln, and woodshop. Feel free to bring a bag lunch and a chair. Water will be provided. Complimentary lumber drops available for members and we also have variety of kiln dried lumber available for sale. (no credit or cash apps accepted) The location is approximately 15 miles East of Kings Dominion, **305 Hazelwood Rd, Aylett Va 23009**.

The point person for this event is Chuck Bajnai. Please RSVP by October 17th Club Meeting to Chuck Bajnai in person at the club meeting or email at: csbjnai@gmail.com. We need to know who is planning to attend. Please respond to Chuck ASAP. This will be a great time to explore a wonderful wood resource within our club and to have a time of visiting with one another and getting to know each other better.

Wood for Wig Stands

Thanks to the generosity of Barry and Leigh, wood sets for approximately 20 wig stands will be available at the September club meeting. Wood for the top, bottom and spindle are available in sets. Thanks to Barry and Leigh for their kindness in helping to make this project so successful.

Please make sure you get your set before you leave. The sets are Maple and Sycamore woods. You will make beautiful stands from this wood. Please RSVP to Chuck Bajnai re: Visit to Woods To Goods mill

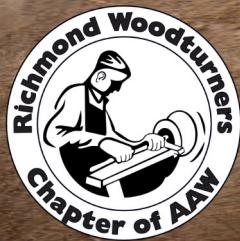

Please plan to get a wig stand set to take home to make a stand after the meeting this month.

Remember the Demo will be on how to make a wig stand. Thanks for your participation in both of these opportunities.

Virginia Woodturner's Symposium

On even numbered years, the woodturning clubs of Virginia collaborate to provide a woodturning symposium. It will be held in Fishersville, VA, on November 2 and 3 (Saturday and Sunday). There will be four 1 1/2 hour demos on Saturday and three on Sunday, for an advanced reservation fee of \$85. Each day there will be a choice of 7 demos in each time frame. This is a real bargain.

A top notch selection of demonstrators has already been arranged on an interesting variety of topics. However, such an event requires participation by club members in addition to just attending. People are needed to assist with A/V, registration, vendor and demo setup on Friday, and a myriad of other details. Equipment needs to be picked up and transported both before and after the event.

The Richmond Woodturners has named two delegates to the Symposium Committee to work toward producing a successful event. They are Walt Bennett and Bob Silksen. Their role is to perform advance planning and communicate Symposium requirements to the club and its Board of Directors. Let them and any board member know of your interest in helping out.

The Virginia Symposium has a Facebook page, as well as a website. Either may be accessed for information about the Symposium.

Klingspor and Penn State discount programs

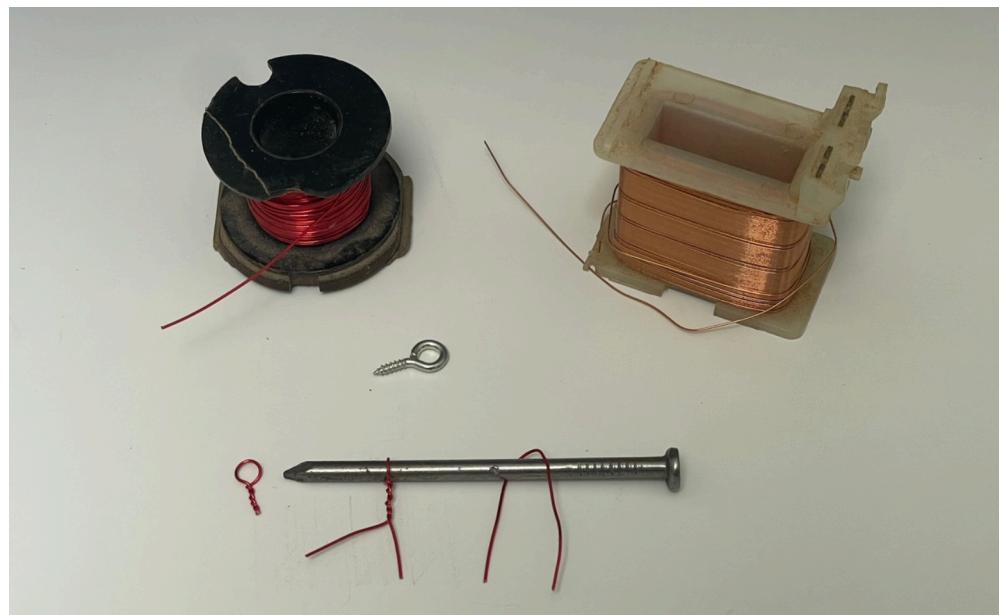

Both Klingspor and Penn State Industries offer a 10% discount to members of woodturning clubs. If any member wishes to participate, both companies require the club to submit your name, email address, phone number, and mailing address. You must then establish an online account with a user name and password. Thereafter, you will receive an automatic 10% discount on all on line purchases.

Chuck Horton (our Secretary) is the contact point for RWT members who wish to participate. If you want to sign up for either or both discounts, send Chuck an email noting P, K, or both and he will forward your information to the appropriate company. (hortoncharles876@gmail.com)

If you DO NOT wish to participate, no action is necessary and your data will NOT be submitted.

Tips and Tricks

Dan Luttrell

“Screw” eyes for your ornaments.

Use lacquer coated copper wire from an old coil, transformer, or solenoid. Twist a 2" piece tightly around an 8d nail (or smaller, if you like), and cut the twist to about 1/4" long. Drill a hole in the top of your ornament and glue the eye in place. I personally think these are much less obtrusive than the smallest screw eye you can get from the hardware store.

September 2024

American Association of Woodturners is a nonprofit organization dedicated to advancing the art and craft of woodturning worldwide through education. With more than 16,000 members and over 365 local chapters globally, AAW members include amateurs, hobbyists, professionals, gallery owners, collectors, tool and equipment suppliers, and others.

AAW wants to help you enrich your woodturning experience and pursue your aspirations wherever you are on your woodturning journey. We invite you to learn and grow with us and become part of the special community that is woodturning. They provide an almost limitless amount of resources: written articles, videos, and a yearly national symposium. Check them out at www.woodturner.org. Consider joining today.

Sponsors and Friends of the Club

Organizations such as the Richmond Woodturners, Richmond Penturners, and James River Woodcarvers would not exist if it weren't for the kindness of their sponsors. We are blessed and grateful to have the Richmond Virginia Woodcraft store supporting us and our activities. Members get a 10% discount on meeting nights for most turning related items.

Please remember this and support them at every opportunity! For the classes provided at this location see [Woodcraft Classes](#). Look for classes taught by Ray Deyo, Clark Brummett, Brian Noble-Marx, and others.
