Everyone loves Tops

Everyone enjoyed turning and learning spinning tops. We even have some to add to the growing total. The goal for this year is 2000 tops!

Dawn Flores was a guest speaker at the May meeting soliciting help in a personal art project. There are 80 acres of Virginia woodland scheduled to be clear cut and developed over the next two years, and Dawn is undertaking an artistic representation of the land in its natural state through a variety of art medium. We have been asked to convert some of the cut timber into a variety of turnings as part of her project which will be prominently displayed in a high end gallery when completed. Dawn is an adjunct faculty member of the Virginia Museum of Fine arts and an art instructor who travels throughout the United States. She was also a Board Member of the Virginia Women's Caucus of Art from 1993 through 1998. After her presentation, she received many volunteer names from club members for participation and stayed to watch the top turning experience later in the evening. Overall, she was very impressed with both our club and the support provided for her project.

F r o m o u r P r e s i d e n t

I recently received a plea for help from the Virginia Woodturning Symposium committee because they need to replace a member who was from Richmond Woodturners. Each of the ten clubs from around Virginia contributes two representatives with the result of our own biennial symposium. The event continues to grow over time with several well known professionals participating next year (see this newsletter for more information).

What does a committee member do? First and foremost, they represent our own club thereby giving us a voice in the event – and they act as a communication pipeline between our membership and the committee. This individual participates in occasional teleconferences and very few meetings as well as having some involvement in the actual event itself (they are expected to attend – free of course). As with any organized endeavor, there are several specific areas of focus and each committee member selects where they can be the most helpful (I have the list if you are interested). And it's not as if you are out there alone – there are nineteen other members including our very own Colin Smith, who happens to be Treasurer of the event (nice job, Colin!).

The question is: who would like to take this position? Who wants to represent Richmond Woodturners? Who wants to meet a bunch of other turners from around Virginia with the potential of making new friends; have direct input in how the event moves forward, and become involved in something that touches many others? I know, the unknown can be a little scary, especially in a volunteer situation. But, like most other things, it's entirely different when you get there. We have the obligation to fill this position and you have the ability to make it happen. We are looking for one individual who will step forward and become a Virginia Symposium committee member. Will it be you? Let me know and, thanks for your contribution.

QUARTERLY
CHALLENGE**

The Challenge will now be regularly scheduled for the third month of each quarter (March, June, September, and December) with the subject announced at the beginning of each quarter and included in the newsletter. Entries will be placed on a table separate from the Show-n-Tell. Members attending the meeting that evening will select the Challenge winner by popular vote. Voting will be accomplished by placing a token (provided on the table) in the cup (also provided) for the entry of your choice. The winner will have the opportunity to speak about the piece, how it was made, type of wood, any special processes or finishes used, etc. It's a change to have a little fun and get everyone involved one way or another.

Remember Junes challenge is to turn a piece of jewelry
