### **Demo: Show & Tell or Q & A**

This was your chance to ask the experts about your failed design, messy finish, new kits, better or different ways to do something or anything else. Most were happy with there finished turning, but a few stepped up with some good questions. Just What We Needed for This Demo.

**First** up was some design changes for a bowl. Suggestions were reduce the foot size, move, thin it down more, move the center band up to about a 1/3 of the height of the bowl, use a jam chuck since the nub is gone and removal of the new nub after reducing the foot.

**Next**, how to harden shells; Krylon Triple- Thick Clear Glaze from Wal-Mart. A couple of thin coats inside & out do the trick. Or Mod- Pod from Michael's works for Cindy D. shells.

**Small hole** hollowing: get it thin as possible; don't worry about a smooth inside as no one can get their fingers into it anyway.

**CNC** programing a basket weave on a pen blank.

New **Gun Bolt Pen Kit** form PSI: the bolts on the wrong side for a gun, parts need a little finesse.

**Tear out trick:** wet down the fibers with soapy water then finish turning. The solution swells up the fibers making them easier to get a clean cut.

**Next Demo:** Jim Duxbury & Kaleidoscopes [www.duxterity.com](http://www.duxterity.com)

**Shows Coming Out Of VA:****Shows Coming In VA:**

**Sept 15-16:** VA Turners Symposium, Fishersville

**Sept 21-23:** Field Days of the Past, Goochland

**P**en Turners: held their meeting last Thursday. 4 small demos were presented. Scallop pen blanks start with 2 centered 45° angles. Contrasting wood is glued on and then aluminum thins then more wood. Soak in CA glue (let sit for 24 hours), then square up the blank and turn. Woodcraft's new CA glue finishing kit is fast. It comes with 2 CA glues, activator, #400 grit paper, 2 polishes and instructions. This CA glue was designed for finishing. 5 coats and polishing took less than 30 minutes to complete and Rick had a box of kits for 10% off. **Finishing acrylic blanks.** Sand through the mini-pad collection (#400-1200grits). Wet each pad and wipe down the blank between grits with a wet paper towel. Bill used PolishX from Wal-Mart (auto section). Just a drop will do it.

Pouring Acrylic molds. Bill used molds made by Fred ([www.luv2turn.com](http://www.luv2turn.com)) and a hand painted tube ([www.???.com](http://www.???.com)). Mix up resin, place in hot water (thins it & raises the bubbles better), add kicker. Mix and pour over tubes in a mold. No pressure is needed; let set for 24 hr.

Group is thinking of a **Regional Pen Symposium** for the Richmond area for the spring 2013 with vendors and all 3 state clubs' help. Bring your ideas to the next meeting. A location should be locked in soon.

Richmond Woodturners, under the direction of Woodcraft's Ray Deyo, continued its involvement in teaching 16 4-H'ers at Holiday Lake, near Farmville, the basics of woodturning. Other RW members were Rob Blader, Ray Melton, Jim Bumpas, Deane Cox,

Bob Silkensen, and Lee Scarbrough. This has been a great experience for both clubs- they love us coming and we love teaching them how to turn a bowl. It is our hope that this will continue for a long, long time.

## FOR SALE, BUY, or TRADE

Ray Deyo offers a 10% discount on non-power tools and supplies on meeting nights at Woodcraft for members only. Another very good reason to join us every month!

Another missed opportunity to sell your unused stuff

Or get rid of a cut up tree, free

### Free Wood

I have a large white oak that came down in the storm Saturday night (Storm). It is mostly cut up into about 16 inch lengths, but there are some longer pieces. This is about a 22 inch diameter tree for most of the trunk. I also saved some crotches that are very wide as well as some twisted sections.

I also have another white oak and two hickories that were taken down in February.

If anyone in the club would like to have either the oak or the hickory, they are welcome to come and get it. The hickory is basically in 9 ft lengths.

Let me know and I will provide directions. It is located in New Kent County. Thanks,
